ISPA (Internet Service Providers Austria) represents the interests of more than 200 members from all sectors around the Internet industry as a voluntary interest group. The ISPA-News are focused on providing background information and analysing current developments and topics with regard to the internet economy in Austria and Europe.

The first article written by Friederike Knoke deals with questions around criminal proceedings and electronic evidence (p. 10-11). The second article written by Iheanyi Nwakwo and Jonathan Stoklas deals with data protection issues in disaster management (p. 16-17).

The ISPA-News are available online: [https://www.ispa.at/wissenspool/ispa-news.html](https://www.ispa.at/wissenspool/ispa-news.html)

**L3S projects EVIDENCE and CARISMAND published in the latest edition of the ISPA-News 02/16)**
